Projects

Animetaku: Anime Database [↗](#)

React, Jikan API

Built an anime web app and database with popular, character profiles, searches, trailers, airing, and upcoming titles, and API integrations.

SQL AI Query Generator [↗](#)

React, Tailwind, Express and Google PaLM API

Built a natural language to SQL query code generator web application using the Google PaLM API for state-of-the-art language processing. Developed on Vercel serverless platform.

BeatBlitz: Product Fronted [↗](#)

React, Tailwind

Developed front-end web application for BeatBlitz audio products using React framework And Tailwind.

Smartphone Data Analysis Python Web App [↗](#)

Python, Pandas, Matplotlib, Plotly, and Streamlit

Developed a data analysis app using Python and Streamlit to explore smartphone attributes, pricing, ratings, and features. Utilized Plotly and Seaborn for interactive visualizations.

Professional Experience

Content Writer

01/2023 – present

Inspire2rise [↗](#)

- As a Content Writer at Inspire2Rise, I focused on optimizing the website's content for search engines. Through research and implementing best practices.
- Written News articles, product releases, press releases, evergreen content, and how-to guides.
- Conducted thorough exploratory data analysis and derived
- actionable insights from the data with visualization, such as the impact of ratings on pricing, trends in processor preferences, and the influence of screen size on smartphone costs.

Skills
